NOTICES.

IMPORTANT NOTICE.
HUBBUCK'S PATENT WHITE ZINC PAINT

TO Architects, Contractors, Dock Companies, Mill Owners, Railway Companies, Ship Owners and all who are desirous of obtaining a reliable and durable Paint, THOMAS HUBBUCK AND SON (the original Patentees of White Zinc Paint) beg to inform the above that "HUBBUCK'S GENUINE PATENT WHITE ZINC PAINT AND OILS" can always be obtained of the undermentioned well known Firms in Bombay. This Paint has successfully stood the test of all climates for many years, and has an ever increasing demand; it is far superior in pureness of colour, in body, in fineness, and lasting properties to any other Paint; retains its color, and when mixed with HUBBUCK'S PALE BOILED LINSEED OIL does not crack or blister, and is not effected by atmospheric changes, salt water, or gas). THOMAS HUBBUCK AND SON knowing the importance of such a Paint to the above, trust their Friends will continue to use this world-renowned HUBBUCK'S PATENT WHITE ZINC PAINT, the quality of which never varies

HUBBUCK'S PALE BOILED LINSEED OIL.
THOS. HUBBUCK & SON desire to call attention to their special PALE BOILED LINSEED OIL. This OIL is paler than Raw Linseed Oil and therefore does not discolor White or other delicate colors. By their patent process all the fatty matter (which renders Paint non-drying and sticky) is extracted, making the Paint mixed with this Oil dry quickly with a perfectly hard and smooth surface, prevents blistering, and is therefore consequently much more durable. This Oil has been successfully in use for many years in China, Japan, the West Indies, the Straits Settlements, Burmah, &c. One trial will show the importance of this Oil in a climate like India, and will cause it to become in general demand through India. THOS. HUBBUCK & SON ship only GENUINE OILS and TURPENTINE, and therefore, trust their friends will see when ordering HUBBUCK'S PAINTS that they also get HUBBUCK'S GENUINE OILS and TURPENTINE. Good Paint is destroyed by using an inferior Oil.

ADVICE TO MOTHERS.—Are you broken in your rest by a sick child suffering with the pain of cutting teeth? Go at once to a chemist and get a bottle of Mrs. Winslow's Soothing Syrup. It will relieve the poor sufferer immediately. It is perfectly harmless and pleasant to the taste. It produces natural, quiet sleep by relieving the child from the pain, and the little cherub awakes "as bright as a button." It soothes the child, it softens the boms, allays all pain, relieves wind, regulates guthe wels, and is the best known remedy for dysentry and diarrhœa, whether arising from teething or other causes. Mrs. Winslow's Soothing Syrup is sold by Medicine dealers every, where at is 1½ per bottle. Wholesale oy the Anglo. American Drug Company, Limited, 38, Farringdon Road, London.

THE BROWNUGGREE DEFAMATION CASE.—The case in which Babajee Gunput Pinglay and Byramjee Jamsetjee Khansaheb are charged with defaming Mr. M. M. Bhownuggree, C. I. E., and which was fixed for yesterday, was postponed till to-morrow (Saturday) afternoon, as the magistrate (Mr. Cooper) was busy with other Cases. It was, however, mentioned in court that the second accused, Byramjee, had not put in an appearance, but had sent in a medical certificate to say that he was ill."

ROBBING A CHILD.—At the Girgaum Police Court yesterday, Sonoo Dhurmajee, a labourer, was charged by Inspector Guider before Mr. P. Ryan, with stealing a silver armlet, with a rupee attached, valued at Rs. 2, from a child belonging to Pandoo Bhema, a mill-labourer, residing at Gorupdeo Road on Wednesday last. The accused was arrested at the Mazwarree Bazaar, while endeavouring to dispose of the ornament. Sonoo Dhurmajee, on pleading guilty to the charge, and admitting one previous conviction, was convicted and sentenced to four months' rigorous imprisonment.

THEFT OF A COPPER POT.—At the Girgaum Police Court yesterday, Tyebally Dawood was charged by Inspector George before Mr. P. Ryan, with stealing a copper-pot, valued at Rs. 3, the property of Wallibhoy Mahomedbhoy, from his residence at Chiboor Gully, on the 2nd instant. On the theft being reported to the police, the accused was arrested, while endeavouring to dispose of the stolen article, to a Marwaree at Poras Road, on the same day. Tyebally Dawood, on pleading guilty to the charge, was convicted and sentenced to three months' rigorous imprisonment.

CRIMINAL TRESPASS.—Yesterday, at the Girgaum Police Court a noted character, named Ally Shaik Mahomed, was charged by Constable Good before Mr. P. Ryan, with trespassing in the dwelling-house of Shem Topoy Ebrahim, a merchant residing in a bungalow, at Parell Road, at about 3 o'clock that morning, with the intent to commit theft. The accused was arrested, while entering the cook-room of complainant's house, which is on the upper floor of the house, and handed over to the police. The accused, on admitting three previous convictions, was sentenced to three months' rigorous imprisonment.

BOMBAY VETERINARY COLLEGE.—In accordance with a former Resolution of Government, Assistant Surgeons Kaikusro Engineer and Sukhia, who were lecturers in the Bombay Veterinary College, have reverted to their regular medical duties, and the appointments left vacant thereby, have been conferred on the newly-passed graduates, Messrs. Vikaji Edulji Vakharia and Naoroji Dorabji Dhakmarvala, who will be henceforth styled instructors. These changes have come into operation from the 1st instant at the suggestion and recommendation of Dr. John H. Steel, the Principal of the College, with the sanction of Government, thereby saving a large amount in the monthly expenditure of the institution.

COMMITTED TO THE SESSIONS.—The case in which Mukhi Haji Ismail stood charged with the murder and voluntary causing grievous hurt to one Tulsidas Mohunjee on the 4th ult., and also Narayen Premjee and Shiva Bhoja with abetment of the offences, came on for further hearing yesterday before Mr. Cooper at the Esplanade Police Court. Mr. Little, the Public Prosecutor, conducted the prosecution, and Mr. Pherozeshah Mehta, and Mr. Russell appeared for the defence of accused Narayen Premji and Shiva Bhoja respectively. After hearing the addresses of the learned counsel for the defence, his Worship committed the three accused to take their trial at the ensuing Criminal Sessions of the High Court.

TRAVELLING BEYOND HIS DISTANCE.—Dhola Indurjee, a carpenter by trade, was charged by an Inspector of the G. I. P. Railway yesterday before Mr. Cooper, at the Esplanade Police Court, with having over-ridden his distance without paying the legal fare. The accused, it appeared, took his ticket at Gadwara for Barbai, and instead of getting out at that station proceeded on to Bombay. He was accordingly arrested, and on being placed in Court yesterday stated to his Worship that he had paid Rs. 8 at the Gadwara station, which he was told was the fare to Bombay. As the Inspector had no witness to corroborate his statement, his Worship informed him that it would be necessary to send for the coaching clerk from the station, and postpone the case till Thursday next, releasing the accused on bail.

FATAL ACCIDENT.—An inquest was held by the Coroner yesterday, at Haines Road, respecting the death of Hajee Abdool Raimon, aged 55 years. Deceased was a painter, employed in the G. I. P. Railway Workshops at Parell. About fifteen days ago, some labourers were pushing a lorry along the rails at the Workshops, which was laden with carriage springs and an axle-box. While the lorry was moving deceased went up to it, to remove the axle-box, and as he was trying to do so, the wheels of the lorry went over the toes of his right foot, and crushed it. Deceased was taken to the J. J. Hospital. About three days ago, he was attacked with tetanus, and deceased's wife seeing that he was dying took him home, where he died on Wednesday. The verdict was, "That the death of Hajee Abdool Raimon was caused by injuries received by his toes being accidentally crushed under the wheels of a lorry."

GRANT COLLEGE MEDICAL SOCIETY.—An extraordinary general meeting of the G. C. M. Society was held in the College Library on Wednesday, the 2nd instant, Dr. Dorabji Hormusji in the chair. There were present Drs. R. N. Khory, Bhalchandra Krishna, K. N. Bahadurji, A. P. Cama, B. S. Shroff, N. N. Katruck, Gowasji B. Shroff, S. D. Bharucha, R. N. Ranina, H. J. Appoo, A. D. Mody, G. B. Prabhakar, and Temulji Bhicaji Nariman, the honorary secretary. Business.—Dr. R. N. Khory's proposition to present an address to H. E. Lord Reay for his policy in connection with medical education. The majority of the members present were in favour of an address to be given by the medical profession, and not by the G. C. M. Society, as they considered it a purely literary society, and Dr. Khory's proposition was therefore lost.

FURIOUS DRIVING.—At the Esplanade Police Courts yesterday, Inspector Stanford placed Makhan Bhana, a coachman, residing at Kavekhana, before Mr. Cooper, the Chief Presidency Magistrate, on a charge of rash and furious driving down the Cruickshank Road on Wednesday night, thereby running into a tram-car that was approaching from the opposite direction, and causing grievous hurt to a conductor of the car, name Kharim Abdoola. At the time the accident occurred, Kharim was standing on the foot board, issuing tickets to the passengers. As the car reached the Cama Hospital, Bhana's carriage, which was a four-wheeled open landau and contained a number of Parsee ladies and children, came along at an unusually rapid pace, and as it flew past close to the tram-car the unfortunate conductor was caught by the splash-board and knocked insensible off the car, sustaining thereby serious injuries to his person. Kharim was picked up, and sent to the hospital, and had his wounds attended to, the landau being shortly after stopped by a policeman. After a number of witnesses for the prosecution had been examined, his Worship postponed the case till Saturday next, releasing the accused Makhan Bhana on bail in a sum of Rs. 50, and a surety in the same amount.

THE ANJUMAN-I-ISLAM LIBRARY.—The fourth annual generally meeting of the above Library was held on Wednesday, the 2nd April, 1890, in the Library Rooms, Bhendy Bazaar. The President being absent at the time of the meeting Mr. Kutebally Shaik Ahmed was proposed to the chair. Mr. Curimbhai Ibrahim was appointed chairman of the Library for the current year. The report of the managing committee was read at the request of the chairman by the librarian, Mr. Dadabhoy Muncherji Gobhai, and accepted. The following six gentlemen were appointed members of the managing committe:—Messrs. Nazurmahomed Futehally, Abdulkadur Habutbhai, Dawoodbhai Musabhai, Gulamali Gulam Hussein, Haji Ismael Hasum, and Saha Bux Barea Gulmahomed. Messrs. Haji Ahmed Atary and Khursedji Pestonji Kohla were appointed as stock commissioners, and Kazi Ismail Kazi Mohomed Meeya Porebundri, and Dr. Khaji Abdulla were appointed auditors. The funds of the Library having been exhausted, a select committee of the following gentlemen was proposed to collect funds:—Messrs. Badrudeen Tyabji, R. M. Bayzal, Honorable F. M. Mehta, Karimbal Ibrahim, Fuzulbhai Visram, Futehally Sheik Ahmed, Nuzurmahomed Futehally, Dawoodbhai Musabhai, Haji Mahomed Haji Ismail, Haji Futehmahomed Rahimtulla, Nurmahomed Jairajbhai Pirbhai, Nonsibhai Khairaz, Abdulla Meherali Dhurumsi, Dr. Ismail Jan Mahomed, Messrs. Adumji Peerbhai, Shaik Adnal Enoof, Shaik Ahmed Shaik Dawood, Haji Ismail Hasum, Saha Bux Bawa Gul Mahomed, Gulamali Gulam Hussein, and Kazi Ismail Kazi Mahomed Meeya Porebundri, with power to add other names. After a vote of thanks the meeting dispersed.

A SQUABBLE OVER VEGETABLES.—Bhagoo Ramjee, a Hindoo, aged 45 years, and Suddoo Babajee, of 30 years, and of the same caste, were brought before Mr. Cooper yesterday, at the Esplanade Police Court, by Superintendent Page, of the Water Division, on a charge of creating a disturbance on Bpri Bunder on Wednesday last. The two accused were in the habit of having squabbles over vegetables that used to be brought from the coast in boats, and landed near the Bori Bunder. As these two individuals could never agree, and had always a set to whenever they came in contact with each other, Superintendent Page and Inspector Stanford found it necessary that such brawls must be prevented, and, accordingly, made provisions for the peace of both the accused and other people, that were wont to buy vegetables in the same way. But on Wednesday morning last matters assumed a different aspect, for the two accused met one another on board a prow at the Bori Bunder, which they had entered to purchase vegetables, and had a regular fight. They were immediately arrested by the police. Mr. Nowrojee Wadia appeared for Bhagoo and represented to his Worship that as he was a weak and infirm old man he was not likely to be guilty of the disturbance that had occurred but had been assailed by Suddoo. His Worship declined to accept this view of the matter, and bound over the accused in a sum of Rs. 50 each, to keep the peace for six months. Before leaving the Court Bhagoo represented to his Lordship that the opposite party numbered 500 persons, and he would consequently be unable to leave his house to purchase vegetables, fearing another assault. His Worship, however, assured him that the police would see to his future protection.

THE *Englishman* says that Generals Tregear and Symons have been called upon for full reports regarding the alleged deficiency of medical stores with their troops, and the issue of tinned provisions and stores said to be unfit for consumption. Our contemporary's charges are directed solely against the Commissariat Department of Madras. It understands the provisions that went from Bengal were quite satisfactory.

FLORILINE!—FOR THE TEETH AND BREATH.—A few drops of the liquid " Floriline" sprinkled on a wet tooth-brush produces a pleasant lather, which thoroughly cleanses the teeth from all parasites or impurities, hardens the gums, prevents tartar, stops decay, gives to the teeth a pe uliar pearly whiteness and a delightful fragrance to the breath. It removes all unpleasant odour arising from decayed teeth or tobacco smoke. The " Fragrant Floriline," being composed in part of honey and sweet herbs, is delicious to the taste, and the greatest toilet discovery of the age. Price 2s. 6d., of all Chemists and Perfumers throughout the world. Sold wholesale by the Anglo-American Drug Company, Limited, of Farringdon-road, London.

BOMBAY MARKET REPORT.

THURSDAY EVENING, APRIL 3.

ALTHOUGH business has nominally resumed its wonted course during the present week, a holiday feeling has continued to prevail in anticipation of Eastertide and the general lull in trade with Europe which obtained at that time. In Cotton the feeling has been steady on the whole, though on most days only a small export and local business has been transacted. Wheat has been in small request for export, and with the advent of the new crop prices are a little lower, but pretty firm at the slight decline. Seeds have been taken to a moderate extent, and are steady at previous rates. Exchange has been steady for ready business, but firmer for forward transactions; and rates in the former position are the same this evening as they were a week ago. The stringency in the Money Market is unabated. Government Paper has fluctuated slightly; but the present quotation for Four per cents. is within 1-16 per cent. of what it was last Thursday. Freights are very weak at a material decline in rates, cargo for prompt shipment continuing very scarce. The position of Imports is unchanged, both as regards ready transactions and forward business.

MONEY.—Although, in the open market, the extremely high rates demanded for accommodation indicate the continued scarcity of Money, it is not surprising, looking to the comparatively quiet state of trade generally in the holiday time just over, and in anticipation of that about to commence, that the Presidency Bank's Cash Balance showed, last Saturday afternoon, the substantial increase of 8½ lakhs. During the week covered by the Statement made known on Monday—there had been little help from Government Deposits, a material increase in the branches having been counterbalanced to a great extent by withdrawals at the Presidency; and on this occasion it was owing mainly to a falling off in the trade demand that the improvement in the position was due. The figures given in the Return showed that Private Deposits had increased by nearly 10 lakhs, and though there was again a larger amount out in Loans, there was a good deal less on Bills Discounted, the net diminution in trade requirements having been some 7½ lakhs. The Bank's minimum rate remains at 12 per cent. per annum, no change having been made this afternoon.

EXCHANGE opened firm on last mail day at Thursday's closing quotations, and continued steady thereat, a fair business having been done, both ways, at current quotations, and for future delivery at yesterday's final rates for Credits, say 1s. 5½ to ⅛d. for April, and 1s. 5 1-16 to 1s. 5d. for May delivery. The market closed firm with a hardening tendency, especially for forward delivery, say April-May, for which time 1-32d. to 1-16d. higher was asked than was obtained on the previous day. The Banks were closed on Saturday for another native holiday. On Monday the market reopened steady at Friday's closing rates for ready Bank and Mercantile Paper, but a shade firmer, at 1-32d. to 1-16d. advance for forward delivery, at which we hear of a fair amount of Merchants' Bills having come out, say, at 1s. 5 9-32 to 5-32d. for April and at 1s. 5 3-32d. for early May delivery, the latter rate, however, not having been available at the close. Telegraphic was placed at 1s. 4 13-16d. for transfer in all May; but for the Bank media of remittance the demand was still very limited. On Tuesday the feeling was again firmer for forward delivery, and the rate for the 25th of this month advanced to 1s. 5 3-16d., and for early May delivery to 1s. 5 5-32d., for three months' sight Credits, a fair forward business having been done, Bank Telegraphic was quoted at 1s. 4 15-16d. for all April, 1s. 4 29-32d. for May, and 1s. 4 23-32d. for June transfer. The market was steady yesterday with little doing at Tuesday's quotations for Merchants' Bills, ready and forward. For short time 1s. ⅛d. was quoted Bank Demand for the mail, in one direction, but only to a limited extent. The telegram regarding Council allotments to hand this morning reported 45 lakhs of Wire Transfers, having been placed at 1s. 5 1-16d. to the three Presidencies, and 5 lakhs extra to Calcutta at 1s. 5 3-32d.; and this market has been quiet but steady at yesterday's rates for both ready and forward business; a moderate amount having transpired at our quotations, which closed at:—

GOVERNMENT PAPER did not fluctuate much last Friday, but the feeling was weak upon the whole, and Four per cents for cash were quoted, at closing, at 99½, one-sixteenth higher having been the rate during the greater part of the day; with the settlement price the same; and the end of April account quoted at 100⅛. The market was closed on Saturday for a Native holiday; and on Monday under the influence of the settlement, the cash price of Four per cents receded to 99⅜, and the end of April account was quoted at 100 3-16, but, towards the close, a firmer feeling prevailed, and the rate for Money rallied to 99⅝, which was the final quotation. The March settlement being over, this market took an upward turn again on Tuesday, the cash price of Four per cents having advanced to 99 11-16 to ¾, which was the closing rate; while for the end of this month 100 5-16 was quoted. Tuesday's advance, however, was not sustained on the following day, and Four per cents for cash receded 1-16 to 1-8 per cent., closing at 99 5-8; while for the settlement at the end of the month 100 3-16 to ¼ became the quotation. The market has been rather easier again to-day, and the price of Fours for Money at closing this evening is 99 9-16, the quotation for the next account being 100 3-16; but little has been done to-day on either line. The nominal rate for 4½ per cent. Paper has been advanced to 100⅜.

Municipal 5 per cent. Loan is unchanged at 103¾. Port Trust Bonds are 1 per cent. lower, at 94.

SHARES have been a quiet market all the week, and prices, generally, have not shown much movement; but the feeling with regard to a number of Cotton Mill shares has improved, and compared with our quotations of a week ago, we note a more or less considerable advance in prices in a good many cases. Alliance, Colaba Land and Mill, Empress, and Luckmidas Cotton Mill shares are Rs. 5 higher; Connaught, Howard and Bullough, and Hyderabad have all advanced Rs. 10; Queen are Rs. 12½ higher; Hindustan and City of Bombay have advanced Rs. 15 each; Indian Manufacturing have advanced Rs. 3 Rs. 30; Madras United Rs. 50; and Manockjee Petit Rs. 55 per share. In Press Companies' shares, Fort are Rs. 25 higher; Khangaum and Mofussil have advanced Rs. 5 each; New Berar are Rs. 10 higher; and New Indian have gone up Rs. 2½ per share. In miscellaneous shares Bombay-Burma Trading, first issue, are Rs. 25 higher, while the third issue, are Rs. 5 up. Bombay Flour Mill Shares are Rs. 50 higher. Delhi and Norther Fire are Rs. 2½ down, Treacher and Co. have advanced Rs. 10. Bank of Bambay shares are Rs. 2½ lower.

IMPORTS.

PIECE-GOODS.—Money continuing as tight as before, operations in Grey Goods on account of the up-country markets are still confined to the imperative requirements of buyers; dealers, however, are firm in maintaining current quotations, notwithstanding a slight increase in stocks. The improved feeling, leading to a better demand, for Bleached Goods noticed in our last report continues; but we can advise no upward movement as rates. An average business is being done on this line for up-country buyers' account. In Turkey Red, Dyed and Printed Goods we have no change whatever to report. The offtake of imported Goods from the bazaar during the week is put down at 3,700 packages. Local goods have been steady at about previous rates, and have been taken to the extent of about 2,000 bales.

YARN.—Imported Twist has been steady at previous quotations, but with only a moderate business passing. The usual weekly information from Hongkong regarding Bombay Spinnings has not been allowed to transpire, but public opinion assigns to it a very unfavourable character. Spinners here have at last broken their reserve, and have accepted the offered reduction of 1-16 to ⅛ anna per lb., at which a large business aggregating some 8,000 bales, has been done. No. 6s. is the only exception to the reduction in price, this count being dearer to the extent of 1-16 to ⅛ anna per lb. The market closed brisk and advancing at the following official quotations:—

Twist ...	No. 6s	Mule, As.	5¾ to 5 7-16 per lb.

,, ...	30s	,, ,,	8 ...	,,

At a meeting of the Bombay Millowners' Association, held on Monday, it was resolved to stop work for eight days in a month for three months following the 15th inst.

METALS.—A small business only has been passing in Copper, and the price of Braziers has declined 4 annas per cwt., but the tone of the market is steady. Yellow Metal on the other hand, is 8 annas per cwt., higher, the market being firm at the advance. Iron has not been in much request, but is unchanged in value in a steady market.

COAL.—A considerable business has been done during the past week, and the tendency has been towards higher rates. Dealers and speculators have been the principal buyers, and importers have, so far, freely met the demand. The Mills, however, have not yet bought, and will have to lay in their monsoon supplies shortly, as the stock on the Bunders is now greatly reduced, and is almost nothing as compared with previous years. The sales are 4,000 tons of Hasting's Hartley per Harewood s. (shortly due) at Rs. 18¼ per ton; and 7,000 tons of the same description for April shipment, at Rs. 18½ per ton; also some 8,000 tons of Powell's Duffryn, likewise for April shipment, at Rs. 20½. Ready Davison's West Hartley per Linda (s) (in harbour) was placed at Rs. 21 per ton; and Powell's Duffryn per Knight Errant (s), also in harbour, at Rs. 21½. The Market closed firm at our quotations, say:—

Powell's ready Rs. 21½,	forward Rs. 21	per ton,	sellers.
Davison's do ,, 21	do. 19	,,	do.

EXPORTS.

COTTON.—Last week closed with a dull feeling for this staple, and only a small business was transacted, on about the basis of previous rates. On the re-opening of the market on Monday (Saturday having been a holiday) a steadier tone prevailed and continued for a day or two with rather more doing, both by shippers and by the local Mills, the market, however, becoming quiet again yesterday, with business again restricted to a small compass. The week's transactions have been mainly in Bengals, at Rs. 170 to Rs. 193½ according to quality; Julgaum at Rs. 193½-99; Broach, at Rs. 247½-51; Mowa, at Rs. 215-27; and Veraval, at Rs. 183-202; smaller lots having also changed hands of Sheogaum at Rs. 204½; Khangaum Ginned, at Rs. 205-12; Barsee and Nugger, at Rs. 216-24; Bhownugger, at Rs. 218-25; and Dharwar, at Rs. 225½. A parcel of old Dharwar, also found buyers at Rs. 197 per candy. The market closed steady this evening with prices Re. 1 to Rs. 3 lower for Bengals, Broach, and Oomra, but unchanged for other descriptions, compared with our quotations of a week ago.

The arrivals of Cotton of the new crop into Bombay during the past week have been 90,400 bales, against 72,100 bales received in the corresponding week last season; and the total increase in receipts of new Cotton since the season opened compared with last seasons figure's to the same date has become 126,100 bales.

The following are to-day's quotations for full-pressed Cotton with the equivalents in sterling, cost, and freight to Liverpool via, Canal without commission:—

WHEAT remained steady in tone to the close of last week, but with very little business doing and on Monday prices gave way generally to the extent of one anna per cwt. the market, however, being firm at the decline though still with but little demand for export. Since then the tone has been firm or steady, but with no accession of business or further changes in prices.

SEEDS have been taken to a moderate extent by shippers, and the market has been steady throughout the week, the only change in prices being a decline of half an anna per cwt. in Linseed, at Rs. 6-5-6 to Rs. 6-10-0 per cwt.

TELEGRAPHIC WEATHER REPORT.

SIMLA, April 3.—The barometer has fallen in the Central Provinces, Khandesh, the Deccan, and west of the Peninsula, and risen almost everywhere else. Distribution not materially changed. Low-pressure area over the East Coast has moved slowly inland. Pressure high on the north-west of the Punjab, Mysore, and south and east of the Bay. Winds also almost unchanged; force generally less, though still fresh in many parts of the west coast. The temperature has risen, except in the north-west of the Punjab and south of the Peninsula. It is warmest in the district of Guzerat, Khandesh, and the Deccan, but the maximum, exceeding hundred, is general in the North-West Provinces. Weather fine, except in Malabar, where it is cloudy, with some showers. No sign of change at present.

A PRELIMINARY meeting has been called for this evening at the house of Sir Dinshaw Manockjee Petit, Bart., Hornby Row, at 5 o'clock, to discuss and adopt resolutions to be placed before the general meeting of the inhabitants of Bombay at the Town Hall, on Wednesday next, regarding a projected memorial to Lord Reay.

ONE of the usages peculiar to Peking is the appointment by official authority of a certain class of individuals styling themselves *Ching Chi*, or public arbitrators, to regulate the dealings of the market. Their duties are to settle all disputes between buyers and sellers, arising from whatever cause. In the case of every-day articles, such as meat, fish, etc., their prices are regulated from time to time by them, and dealers are bound to abide by these prices on pain of losing their privilege of selling.

THE season reports of the Bombay Presidency for the week ending April 2 are summarised in the following general remarks :—"Slight rain during the week in partsof Karachi. Exotic cotton in 2 talukas of Dharwar blighted; jowari in Ahmednagar middling, and late crops in Satara, except gram, below average. Standing crops otherwise good. Harvesting of late crops progressing generally, and cotton-picking in Gujarat, the Southern Maratha Country, and Baroda. Probable outturn of opium and cotton in Baroda, 12 and 16 annas respectively. Preparations for the next season's crops progressing in Karachi, Shikarpur, Khandesh, Kolaba, Poona, Sholapur, Bijapur and Kattiawar. Fodder scarce in 2 talukas of Khandesh, Poona and Dharwar; and 1 of Nasik. Water scarce in 2 talukas of Nasik, and 1 of Dharwar."

A LADY correspondent writes :—"One of the prettiest novelties I saw made ready for the Drawing-room was a muff made of white and pink hyacinth blossoms, as closely set as the curls of Astrakan lamb. There was a beautiful spray of pink and white orchid drooping over the front, and the muff was lined with delicate pea-green silk, and suspended by a ribbon of the same to match the wearer's dress, which was of faint pink and green, with a train of brocaded tiger-lily pink and green on a faint pink ground. There is another present being made against plumes and wings by the indignant male who gives up such vanities from the time he puts off his pelisse and soft white felt hats, till he gets a regimental cocked hat and plume; or, still later when, though he is past caring for appearances, his horses are decked out in the melancholy feathers of the undertaker. Thackeray was not talking of hats when he said :—"I will admit, if I saw the wing of a cock-sparrow as much as the pinion of an archangel."

VANITY FAIR.

(FROM OUR LADY CORRESPONDENT.)

LONDON, MARCH 14.

SPRINGTIDE in London is not announced, as elsewhere, by the chirruping of birds, and the coming of flowers. London spring is a movable feast as far as flowers are concerned, and we may have our lilac blossoms, primroses, and violets in December—it is only a matter of a shilling or two in the price of the market bunch. And the birds of London are as unreliable for time tables as its flowers. The sparrow in the backyard is no more a connoisseur of the season's variations than his brother Londoner, the cock of the mews, is of daylight *vs.* electric lighting. The signs of coming spring appeal only to the Cockney eye—the house fronts become bright as a field of daisies, the shop windows blossom like the early rose, and a wondrous crop of humanity grows up thick as young corn with the first soft breath of wind. Last week our spring made its *debut*, like a young bride at the Queen's first drawing-room—the most welcome guest of all that curtseyed to her Majesty.

***

To-day we have Queen's weather again for the drawing-room and for the private view of the Royal Institute of Painters in Water-colours which will bring out as pretty a show of color in the crowd as on the walls. The members of the press had a quiet day all to themselves on Tuesday. It was not a gay assemblage likely to throw the pictures into the shade by its superior brilliance. Besides various sombre-coated men, there were a few women, wide-awake, talkative, critical—a woman in black—Mrs. Ashton Dilke, a woman in brown—*Truth*'s Madge,—a woman in grey representing something else—a blue woman (mantle and stockings, I mean), a green woman (mantle, not mind, I mean), a striped woman (again mantle, not epidermis, I mean), and a dumpy little woman, the effect of whose garments was lost in the superfluity of her weight avoirdupois—it was a collection of the moths—not the butterflies—of society.

***

The Exhibition, as usual, is an interesting one. Water-colours have a brilliancy and delicacy—an excellence all their own, which neither oils nor pastelles can eclipse. For reproducing cloud or mist, smooth water or transparent shadows, there is no medium to compare with water-colour at its best—done direct—without tapping, scrubbing, or stippling to spoil the fresh effect. The corner of a Dutch Studio by Claude Hayes, R.I., is a charming bit of simple painting. Anemones et Livres by Madame Teresa Hegg de Lauderset, R. I., a sketch of a few yellow novels with flowers scattered near them—a combination of colour and sentiment, delicacy and indelicacy,—quite French, and quite delightful also as a specimen of unstippled work—an excellent reproduction of the thin light texture of anemones and pansies and of the flimsy pages of Zola and Duboisgobey.

***

Madame Teresa, &c. (I cannot, in conscience, fill up my column with enumerating her very splendid titles) has a speciality for flowers. If ever I buy painted flowers, not adapted to decorative purposes—I think I should like hers. But I do not see the use of flower pictures when one can have the reality so beautiful, so fragrant, and so cheap—a painted jar of roses is a very clever imitation, and it is warranted to last for ever. But give me the bunch of natural flowers to enjoy their soft sweetness, even if it be short-lived. I daresay a great many will cry out against this theory; but it is natural and practical when carried out. I can easily have a pot of flowers in my room, but I cannot have two or three acres of gorse-covered valley and pine-grown hillside with a broken blue and cloudy sky—"The Uncertain Glory of April day"—so I covet Mr. Anderson Hague's picture, which brings back recollections of Spring with its strong changeable wind, its scent of earth refreshed by showers, of spicy pine twigs, and lusciously sweet furze blossom. Nelson Dawson's Port of Padstow has its own delicate charm, though a little cold for Summer study; and being minus the lease of the real port and downs and sandy shore, I would like to own the painting. So too I covet views of Cathedral cities, of bits of Italy and Spain, and dear delightful donkeys wandering in flowery meadows. I covet them despite all commandments to the contrary—and though you may cry "fie," I do not hesitate to hint that it is distance not duty that prevents you from doing the same.

***

Mr. Walter Langley's "Alone," an old woman in a cabin is, to my taste, the picture of the year. There is such pathos in the face and figure, and such power of expression in the different details, even the mouse in the foreground, nibbling undisturbed, carrying out the solitariness of the scene. Except this picture and one or two others I remarked that expression is the strong point of this water-colour exhibition. The portraits are fine and characterless. There is a graceful little head "Hyacinth" by Miss Alice Grant, which is pretty and touching, and Mr. St. George Hare makes a bold effort in his "Songs of Spain," to give his young model the vivacity of her country women. But on the whole the figure subjects are worked up so carefully, that they have lost what they may have possessed of life in the rough original. Miss Kate Greenaway's studies are conventional—the high class picture-book style has spoiled her sense of the really picturesque. Miss Angus's Anglo-Japanese is cleverly put in; but why paint an Englishwoman in Jap clothing that she does not look at home in? Miss Graham's "Funny Story" is well told. Dorothy's dream is a quaint idea of Mr. W. G. Collingwood's. I do not know the original, but one can see that Dorothy went walking one snowy winter's day, and found a nest of cherubs—the funniest little things with hair crimped over their shoulders, I was going to say, but they had no shoulders, they ended off in fringed mist as is necessary and fashionable for incomplete cherubs and loves to do. There are so many women contributors to the exhibition, that it seems as if it were a woman's year at the Institute as well as at the Academy Schools. Alas! poor men—perhaps it is the beginning of the end—and women's years are to be the rule not the exception in the future.

***

Talking of artists and their models, how free and independent they are in taking hints from one another for their pictures. Alma Tadema painted classic maidens in marble halls and every one rushed off then and there and painted maidens more or less truthfully classic, in more or less truthful marble halls. And a portrait painter may paint Ellen Terry with a scroll, and Mary Anderson with another scroll, and even Lady Dunlo with a third scroll; and though it is not thought a very original thing to do, there is no talk of infringement of copyright. But American women may not pose as they like to be photographed. Though nature bestowed on them all the same bones, muscles, and ligaments, and the same facility for exercising them, they may not, we are told, use them *ad libitum*. An American actress has been photographed in one position and woe to the women who dares to infringe her rights by sitting accidentally or naturally in the same style—still deeper dyed woe to the photographer who reproduces her portrait. So much for Republican Liberty! But there is no law human or divine against American women imitating the activity of Miss Pauncefote, the eldest daughter of the British Minister at Washington. Miss Pauncefote is a great lover of walking, and she has made walking fashionable among the hitherto inactive Washingtonian ladies.

***

Philadelphian women are being pushed on in another direction. In order to encourage the sale of a ladies' magazine, the publishers offer a free education at Vassar or other American College to the girl whom a year procures the greatest number of subscribers; and they further offer a consolation prize of a year's free education to any girl who books a thousand subscribers. Instead of a free education bill here, could not some little dodge of this kind be adopted to raise the revenue and lower the rates? The child who sold most stamps and postcards in a year might get a free scholarship at the Foundling, while the consolation prize for selling a thousand stamps might be a free year at the board school. Beautiful! It would not only raise the revenue and lower the rates, but it would assist emigration, and relieve congested districts. For there would at once be a Hegira from London that would beat the record of Hegiras since that of Mahomet. I wonder will Washington women flee, or run the risk of becoming demented by having to withstand the wiles of the free education candidates. Every day swells the ranks of professional women—Miss Alice Parker of Sowell has just been admitted to practice at the bar of Middlesex (Mass.), being the first woman of that place, though the third in the State who has attained the distinction. She is about thirty-five. In Stockholm Dr. Karolina Wilderstrom, the first Swedish lady physician, has settled to work, and she has begun her practice by charitably attending the poor without charging a fee. In Austria, the widow of the Crown Prince Rudolph has joined the list of aristocratic bookmakers, in its highest sense. She is about to publish the journal of her travels, which will be interesting from the fact of the authorship, if not from its intrinsic merit.

***

At home, our women are also pushing to the front. It was at Mrs. Humprey Ward's house in Russell Square that idea of a new Toynbee Hall originated. Gossip said it was to be carried out on the ideas promulgated in "Robert Elsmere"; but Mrs. Humphry Ward denies that the scheme will be connected with her book. "Such an experiment, she says, as we are now making must rest upon deep and broad bases of feeling and sympathy if it is to succeed must draw from many sides and conciliate different orders of minds." New University Hall, as the foundation in Gordon Square is called, will be of still broader and less distinctly churchy character than the establishment in the east of London. Many think Toynbee Hall perilously broad already—what will they think of a further extension?

OUR REGIMENT.

THE COLONEL.

LIEUTENANT-COLONEL MONSOON was a martinet to a certain extent, and being a despotic ruler of about eight hundred souls, possessed almost unlimited power over them. In fact like the Great Jupiter he moved (in our regiment) all things with his nod, at which all trembled with the exception of Mrs. Connally, wife of private Pat Connally of H. Company, who was wont to boast with a toss of her head, that "she didn't care a shnap of her fingers for all the Kernells and Majors in the Service."

The Colonel was a big stout man, inclined to corpulency with a broad face that changed from a beautiful crimson to a deep purple, when anything displeased him, at which time his little red fercety eyes would seem to flash fire from under his shaggy light-coloured eye-brows, his head was as bald as a billiard ball, with the exception of a fringe of whitish brown hair that ran round from just above his ears to the back of his neck, and when a storm was brewing in the gallant Colonel's breast, the signs of the approaching tempest could be distinguished by those who knew him as plainly as the mariner can see the approach of a cyclone by the black clouds spreading upwards from the horizon, and covering the whole of the sky. For on these occasions a red line would appear just above the afore-mentioned fringe of hair, and as our Colonel's big red fat face assumed a purple tinge, the red line would gradually spread upwards over his bald head until from having the appearance of a white billiard ball it assumed that of a red one.

Our Colonel's oaths were as big as his body, and it used to be asserted by some of the men that he could continue swearing for ten consecutive minutes, and never use the same word twice, and as imitation is the sincerest flattery, in this he was ably seconded by his admirer, Sergeant Major George Growser, or as he was called in the Blanks his "Swearing George," who thought that there was not an officer in the whole Army at large like our Colonel.

Our Colonel's nickname in the regiment, where nearly every one, officers and men, has a nick name, was "The Monsoon Bull-Frog," partly on account of his name and partly on account of the deep bass croak he gave on parade when sitting well down in his saddle, his toes turned out like an Infantry Adjutant at an angle of forty-five degrees, sword held at the carry, he growled "Blankshin Regiment Attention," as he pronounced it, "Y'chin," and you would imagine that an electric shock had simultaneously gone through every man on parade, by the sudden start from "Ease" to "Attention," that in the one-thirty-fifth part of a second had passed like the ripple of a gentle breeze across a placid pond, over the regiment, drawn up in column by the left.

Our Colonel would then cast his little red eyes with one sweeping glance over the heads of the battalion, and God help the man then that moved, or committed the heinous offence of spitting in the ranks, for the Colonel was almost sure to spot him, and he would be permitted an interview with the adjutant at the orderly room, and subsequently would figure a conspicuous object probably for the period of seven days, daily on the barrack square, in company with several as unfortunate as himself, in full marching order, at the time that his comrades would be enjoying themselves at their leasure. During which time, for fear that they might grow rusty, they would be kept marching up and down under the command of the defaulter corporal, a man to be found in every regiment, generally an old soldier of good character, but who does not possess sufficient mental qualifications for any other post, than that of shouting in a commanding tone of voice sufficient words of command to enable the above-mentioned squad to keep constantly on the move for periods of an hour at a time.

It was at the interview mentioned above that our Colonel shone most conspicuously, and which of course in the interests of "Good order and military discipline," which expressions, although synonimous and always tied together with a piece of red tape and used together, was held daily at 10 a.m.

The orderly-room in most regiments is situated at the end of the Sergeant's Mess.

At about 9-45 a.m. quite a little crowd of company officers collect near the orderly-room, each accompanied by his Colour Sergeants carrying the company's defaulter book, containing a separate sheet for each man; Orderly Sergeants with slips of paper specifying the offence with which each prisoner is charged, and on the right of the orderly room door the above-mentioned prisoners are drawn up in single rank, with an escort of the quarter-guard, with drawn bayonets, under command of a Sergeant. They are standing at ease.

Presently a flutter of expectation seems to flicker through the crowd, and a murmur is heard, as the big burly form of "Our Colonel" is seen coming across the square towards the orderly-room, his red face looming like a full moon in the distance, his body having a decided list over to starboard as a sailor would say, and his left foot turned very much outward, giving him the appearance of having a slight limp, as he rolls towards the crowd like, as Peter Brown, one of the prisoners, whispers, "a Mauritius trench barrel on two legs." As he approaches, the Sergeant Major shouts, "escort and "prisoners attention" and every one seems suddenly turned into stone. The officers touching their helmets as he passes, and the Orderly Sergeants, "escort prisoners" and rag-tag and bobtail, standing to attention, and looking straight to their front without blinking an eye. Our Colonel passes slowly in, and takes his seat in the magisterial or judicial chair, and the Sergeant Major shouts "Escort and Prisoners, stand at ease."

After preliminary business has been settled, the Adjutant orders the Sergeant Major to march in the prisoners, and Peter Brown was separated from the rest of the prisoners, and a file of the escort taking up their places one on each side of him with drawn bayonets, received the command, "Right turn, left wheel, quick march."

A Civilian would naturally think that the man had committed murder at least from the close way in which he was guarded, but his crime consisted only in being absent without leave, and breaking out of barrack prejudical to good order and military discipline, etc.

As the escort and prisoners marched in, the Sergeant Major shouted "halt front," and the trio halted and fronted, facing the Colonel.

The Orderly Sergeant of the prisoners' company handed in the crime, and the Adjutant read it out.

The Provost Sergeant gave evidence to the effect that Private Peter Brown was arrested by the Military Police going in the direction of the Native Bazar outside the lines at 2 a. m. that morning, and that he had no pass. He was not drunk.

"Which was a wonder," growled the Colonel under his breath, and thus fixing Private Peter Brown with his little ferretlike eyes, asked him what he had to say for himself.

"Hi begs yer pawdon, Sir, but I wasn't habsent hat all."

The Colonel changed a shade redder and scowled.

"Hi was not able to sleep, so hi goes hout and sits hin that their verander hout side hour bungaler, and Hi saw a nigger a'goin across the lines a carryin' of a bundle. Hi thought has owe" ad stole somethin' pr'aps so hi follers im and has 'e run away I o'course run after im into the Native Bazar, and was capt by these ere provo's who made me a prisoner and confined me."

The Colonel's face began to assume a slight tinge of purple, and the ominous red mark showed above his thin fringe of hair. He did not like a soldier to deny his fault when caught red-handed as evidently Brown had been.

"Well, my man, you have made a very plausible excuse, and if I was Private Brown standing where you are, and you were Colonel Monsoon sitting in this chair where I am, I should most likely say the same, but I should never be such a d—d fool as to expect you to believe me."

"Please, sir, if you'll look hat my defaulter-sheet you will find that hi are never bin brought hup for absence or breaking hout o' barracks."

"Very lucky man not to have been caught before, I have no doubt you have been out often, and you had better turn over a new leaf for if you come up here again for your pet fault, I will certainly cut your hair you d—d good-for-nothing, insubordinate, drunken scoundrel."

"Eight days' confinement to Barracks, and I will soon turn over a new leaf for you as your old one is apparently full," and our Colonel entered the punishment on a new defaulter sheet, for Peter was, as the Colonel remarked, full up, and chuckled over his grim joke.

The next prisoner marched in was a young soldier named Hubbar, who had just come out of cells after undergoing a term of imprisonment for striking a non-commissioned officer.

He was a high-spirited boy who had started well, but on account of being harassed by an ignorant Corporal had begun to consider the regiment a very "hell upon earth," and determined to serve no longer at any risk.

He was marched in, and charged with the serious crime of cutting up the whole of the accoutrements which had been served out to him on coming out of cells.

He stood in front of our Colonel with a sulky determined look on his boyish face. The Colonel looked at him, and immediately began to change colour, his eyes flashed, his face became purple, and the whole of his bald head turned red. After a volley of the usual sort, during which he appeared to be going to have a fit of apoplexy; he asked the lad what he had to say for himself.

Hubbard did not answer. "D—n it all, Sir," said the Colonel, "what the deuce are you thinking of?"

"I am thinking," said the lad, "that you are an old fool." And stepping quickly forwards he kicked the table over, before the escort could seize him. He was secured, marched off to the guard-room, and subsequently tried by general court-martial, sentenced to a long term of imprisonment, and discharged from her Majesty's service with ignominy, a broken and disgraced man, who if he had been properly treated in the first instance and not subjected to the tyranny of a brutal and ignorant non-commissioned officer would have turned out a credit to the British Army.

It shows how carefully a commanding officer should watch a non-commissioned officer on first appointment, and if that man shows a tendency to bully and tyrranize the sooner he is deprived of his appointment and reduced to the level of the men he is unable to command the better. But I am glad to be able to say after my experience in the Army that men of the above type are greatly in the minority, and that the non-commissioned officers of the service are generally fine, straight-forward, rough, honest fellows, respected both by their officers and men.

Now, perhaps, many of my readers have come to the conclusion by this time that our Colonel was a tyrant and a martinet, without the redeeming quality; but they are mistaken; he is nothing of the sort, and it will be remembered that at the commencement of this sketch I said he was a martinet to a *certain extent*. True, so he was, but he loved his regiment, and what he did was done in good faith with the object of making it equal to any other, if not the best in the service. His whole efforts were directed to this object and were crowned with success. He had a bad temper, true, a most violent one I may say, and had acquired a pernicious habit of cursing and swearing.

It took a long time to know him, and generally he was not liked, for he had a distant retiring nature, and seldom or never made friends nor associated with the officers, but the older ones amongst them knew that he had many good qualities.

Although he hated women he was fond of children, and liked to be called the father of the regiment by them. And the children knowing this, when asked by him, "Who am I, my little man," generally answered, "You're our father, Sir."

On one occasion when visiting the regimental school, he patted a little red-headed urchin of about eight years of age on the head and asked his usual question. The little fellow promptly answered, "You're old Monsoon Bull-frog, my Daddy says so."

One day our Colonel came on parade in a worse humour than usual. His pet scheme to introduce light claret into the canteen during the hot weather in lieu of heavy porter had failed. Tommy Atkins is one of the most conservative individuals in existence, and will never give up his bear.

He found fault with every movement, and cursed more than usual. Suddenly his face seemed to change from purple to black, he reeled in the saddle, and fell heavily to the ground.

He never spoke again. And so died "Our Colonel," lamented by none but Sergeant Major GeorgeGrowser, who maintains to this day that there is not his equal to be found in the whole of her Majesty's service, and never will be. Perhaps he is right.

SURGEON-GENERAL SIR W. MOORE MEMORIAL FUND.

A MEETING of subscribers to the Surgeon General Sir W. Moore Memorial Fund was held yesterday afternoon in the Durbar Room of the Town Hall, Surgeon-General Pinkerton presiding. The chairman stated they were all aware of the object of the meeting, which was to definitely settle the question as to where the portrait of the late Surgeon General was to be hung up. He was sure they would all be pleased to see the striking likeness it bore to the original, and he hoped it would long remain and be preserved, and serve as an illustration of the admirable career of the person in honor of whom they have had it painted, and which might well be followed as an example. While in England lately, Sir William had mentioned to him that the best place the portrait could be hung up in would be the Surgeon-General's office. The chairman had said at that time that he was not quite sure of that, because the wall, he thought, was not sufficiently high; but since returning to Bombay, he had found that his office was no doubt the best place, because there the portrait would be seen not only by men of his own service, but also by others; and the question they had to decide was where it was to be hung up, whether in the Council Hall or the Surgeon-General's office. While in England, Sir William had spoken to him about the balance which might remain after the purchase of the portrait, and had suggested that it might best be utilised in offering prizes to the hospital assistants class, to the man best reported upon, and might be tenable for two years. It was understood now that the balance was to the utilized in giving prizes in the three medical schools at Poona, Ahmedabad, and Hyderabad, in Sind. The balance in hand was announced by the secretary, Dr. Gallagher, to be Rs. 983-11-5. It was then proposed by Surgeon-General Cates, and seconded by Assistant Surgeon Dr. K. S. Engineer, that the portrait of Surgeon-General Sir William Moore be hung up in the office of the Surgeon-General, Bombay. The proposition was agreed to unanimously, and the proceedings concluded with a vote of thanks to the chairman.

THE miracle-working wells at Miklostolek, near Pressburg, are to be closed by order of the Hungarian Primate, Cardinal Simor. Some time ago these wells were visited by thousands of pilgrims from all parts of the country. Terrible dissensions broke out among the fanatical, which were only stopped by the intervention of the military. The wells have again been visited by vast multitudes, and the Primate has adopted the most strenuous measures in order to bring the benighted people to their senses.

THE *Daily Graphic* points out that a gentleman who had much to do with more than one of the Franklin Search expeditions, has just died at Winnipeg, aged seventy-six. "Mr. William Kennedy had been long in the employment of the Hudson Bay Company, and had lived for eight years in Labrador ere he took service with Lady Franklin. Mr. Kennedy superintended the fitting out of the Prince Albert, and in her sailed on May 22nd from Aberdeen on what proved to be a fruitless errand. He returned to Aberdeen on October 7, 1852, and in 1853 published a very interesting account of his voyage northward, and especially of his visit to Fury Beach, where Lieutenant Robinson had left a depot of stores in 1849. It was on this expedition that Bellot Strait, between Boothia and North Somerset, was discovered and named."

THE PURDAH LADIES' FAREWELL TO LADY REAY.

THE following is the English version of an illuminated address in Hindustani presented by the Purdah ladies of Bombay to Lady Reay yesterday afternoon at Government House. The address accompanied a handsome silver inkstand bearing a suitable inscription :—

To the illustrious and exalted possessor of the most glorious rank of high dignity and honour, the noble Lady Reay, may her good fortune be everlasting.

After salutation expressing our respects we, the undersigned Mohamedan ladies, approach your Ladyship, and trouble you with a few words before your Ladyship leaves our shores for your dear native land.

"Our first prayer which comes from the bottom of our hearts is that the Almighty God may take you and your exalted husband back to your native country in safety and good health, and gladden you both with the sight of those who are nearest and dearest to you.

Secondly we express our heart-felt gratitude to you for the noble disposition, kindness and love you have shown to the ladies of this country from the commencement of your arrival up to the present time, and for the perseverance and pains you have taken in ameliorating the condition of the female of the country, and because your Ladyship had always in mind that European and Natives Ladies should mingle themselves freely, and strangeness and shyness which had taken root should be removed and the females of different caste and creeds who had very little intercourse with each other, should meet on terms of friendship. You initiated the Purdah parties. Whatever praise we may bestow on the gathering we cannot come up to what it deserves. Females of all castes are benefitted by it, and it has done so much good to the Mohamedan ladies in particular that we cannot find words to express our gratitude to you sufficiently through the medium of these Purdah parties. The reserve as well as discord which existed between the females of different creeds, have changed into intimacy and concord.

We do not want to lengthen this address by repeating the various benfits derived by us from your exalted self still we cannot restrain ourselves from mentioning one thing, viz., the unparalleled laborious and diligent efforts you have done and pains taken in the cause of Female Medical Aid in which Your Ladyship so ably assisted Lady Dufferin, and persevered in such a way that the foundation you have laid will in itself remain an everlasting monument of your Ladyship's charitable heart.

"Dear Lady Reay farewell. The pangs we feel in separating from your Ladyship we cannot possibly describe. We conclude with this that your Ladyship's noble disposition and loving and charming countenance, notwithstanding the distance which will separate us will never be effaced from our memories, and we trust that Your Ladyship will not allow thoughts of us, Your Ladyship's well-wishers to be erased from your Ladyship's memory."

Mrs. Ameroodin Tyabjee read the address, and was supported by the lady members of the presentation committee, whose names are given below :—Mrs. Budrudin Tyebjee, the Begum of Mangrole, Mrs. and Miss Rogay Mrs. R. M. Sayani, Mrs. A. M. Dhurumsey, Mrs. Fazul Visram, Mrs. N. M. Jairajbhoy Peerbhoy, Mrs. Hashum Visram, Mrs. Casum Nensey, Lady Tharia Topun, Mrs. Suleyman Abdul Wahid, Mrs. Fazulbhoy Joomabhoy Laljee, Mrs. Hajee Mohamed Hajee Ismail, Mrs. Rehmoobhoy Allana, and Mrs. Casimbhoy Ibrahim.

THE NEW PARSEE BARONET.

THE Native Press, without an exception, has very complimentary notices regarding the new title conferred upon Sir Dinshaw M. Petit.

The *Indian Spectator* says :—Worse men have sometimes had higher honours than those that have fallen recently to the lot of our fine old Parsee Knight, now a Baronet of Great Britain. Sir Dinshaw Petit does not seem to have cared for public distinctions, till late in life under an appreciative Governor they began to overtake him; and then the old gentleman appears to have gone at the game with hearty goodwill. This is legitimate enough for him, and we hope the new Baronet may rest long and happy on this *Ultima Thule* of his latter day ambition. As a public benefactor, Sir Dinshaw has established an undoubted claim on the esteem of his Sovereign and her advisers. Sir Dinshaw Petit has spent truly like a prince, and like a true Parsee he has spent without distinction of race or creed. To his successors Sir Dinshaw offers a goodly heritage to build their names upon. They must now strive to be nature's noblemen, craving for nobler honours which have the approval of the conscience and the blessing of God.

The *Gujerat Darpan* remarks :—The Prince of Cotton Mills has got a place in the English Baronetcy. Sir Dinshaw M. Petit has become a Baronet. This is glad news. Now there are two Parsi baronets—the only natives who have been thus honoured. Others will have got it through sheer philanthropy. The great China Merchant got it as a reward for his world-famous and cosmopolitan charity, and the Prince of Cotton Mills has been fortunate to get it for the same virtue. Now it is time that other communities be honoured likewise. There are men in them who have distinguished themselves in various spheres of life, and have also the means to support the honour.

Says the *Rast Goftar* :—We congratulate Sir Dinshaw Petit, Kt., on his having attained, for a native of India, the rare honour of a Baronetcy. It is the reward of his unceasing liberality which increases as time goes on, and which will, perhaps, receive a further stimulus on account of the honour he has now got for himself and his descendants. As righteousness exalts a nation, so does charity exalt an individual, and the charity of Sir Dinshaw has brought into being a number of institutions for the alleviation of the lot of destitute and suffering humanity. In his article on the Gospel of Wealth, Mr. Carnegie, the American millionaire, has promulgated the doctrine that a rich man holds his money in trust for the good of society. Though Sir Dinshaw may not carry out his brother millionaire's gospel to its logical conclusion, he has, at least, demonstrated by his example that a wealthy man may use his riches for his own benefit and also for the good of others. The Parsi community of India may take pride and legitimate pride in the fact that there are now two Baronets in their midst, and these are the only Baronets in the entire native community of India. Bombay may rejoice in the fact that they are both inhabitants of this city.

The *Gujerat Mitra* observes :—The announcement of the news of Sir Dinshaw Petit, Kt., receiving a Baronetcy is received with great delight by the Parsee community here. (Surat.) We quite concur in the opinion expressed by the *Bombay Gazette* that "it is no small testimony to the public virtues of the Parsee community that two of its members now have a place in the English Baronetage, and Bombay is honoured in no small degree in the fact that thus far the only native gentlemen upon whom hereditary titles have been conferred have been residents in this city." We hope the example of Sir Dinshaw's munificence will be followed by the rich Hindu and Mahomedan gentlemen to be fortunate enough in gaining such a hereditary title.

The *Gujerati* discourses :—Sir Dinshaw Maneckji Petit has been made a Baronet. The honour is well deserved, and we most sincerely congratulate the Parsee community on the signal mark of distinction conferred upon them for the second time in due recognition of the catholic munificence of the worthy Knight. Sir Dinshaw began life, it is said, with a salary of fifteen rupees, and to-day he is the most favoured son of fortune in India. Our Parsee friends may well be proud of their contribution to the material progress of Western India. The community possesses some of the richest families, whose f

THREE WEEKS IN JAPAN.

NOTES FROM THE DIARY OF A PASSEE GENTLEMAN.

IV.

Oct. 4.—We started from Nikko at 6-30 a.m. in jinrickshas, and gave a small reward to the jinricksha people to take us to Utsonomia in time to catch the train, which leaves at 10-15. The distance was 18 miles, and this they covered in 3½ hours, arriving at Utsonomia at 9-45 and taking only 5 minutes rest during the whole journey, though they ran all the way. These jinricksha-men are very fast runners. Each jinricksha had two men, and each of them was paid 66 cents, equal to Rs. 1½. We left Utsonomia at 10-15 by train, and at 2 p.m. arrived at the capital of Japan, Tokio, where we put up at the Tokio Hotel. This hotel is kept by a Japanese in the European style. As it is not very large, the rooms were all occupied, and we were accommodated by putting up screens in the hall on the upper floor. The station of Tokio is called Guino, and the hotel is three miles from it, situated in the fort. The whole road from the station to the hotel is lined with houses, which are only of one or two storeys. The population is about 1,100,000, and the city occupies a large area of ground, it is 9 miles in length and 8 miles in width, or in other words it occupies 72 square miles. According to the census of 1885, the population is 1,103,530, and the houses are 252,354, in number. Among the population there are only 197 foreigners. The fort is in the centre of the city, and is built of earth faced with stones, while round it is a moat which is filled with water from the sea. In the fort the European residences, the Government offices, and the soldiers' barracks are situated. The fortifications cover a large area, and a great portion of them is broken down. Inside the outer wall is another moat filled with water surrounding another fort in which are the palace and gardens of the Mikado.

In the afternoon, we went into the town, but as this was at some distance we could only see a small portion of it. Previous to the year 1604 Tokio was a mere fishing village, but then the Shogun, or high priest, made it his seat of residence. From that date till 1868 it gradually went on growing. Up to that time, Japan was ruled by two kings, one of whom was called the Tycoon, who was the religious head of the nation, and in consequence very powerful, the other was called the Mikado who was the representative of the Royal Family. When the country fell into the hands of the Mikado alone, he made Tokio the capital of Japan, and went to live there. Under him the population has greatly increased, and civilization is spreading far and wide. Railways and tram-cars are in use, good roads have been made, and gradually the city is becoming like a European town. The part of the town which we visited was inhabited by poor people and shopkeepers, so we saw no good houses. All the houses we saw were small, being about 25 ft. wide and of only two storeys, the ground-floor being occupied by various sorts of shops; we kept the best part of the town for the next day. In the evening it rained a little, and later on it rained hard all night. It is not so cold here as at Nikko.

Oct. 5.—It rained heavily all day so we were unable to go out.

Oct. 6.—To-day being fine we went out to see what there was to be seen. We first visited the Sheba temples. As usual we had to go through three gates to get to them, and these gates are gilt and colored and look very gorgeous. A priest took us round. At the entrance to the first court-yard were a number of stone stands for lights, and in the second court-yard there were also a number of light stands, only in bronze instead of stone. These stands were about six feet high and hexagonal in shape. They had been presented as offerings, and dedicated to the memoryof celebrated Shoguns. The second gate is carved and gilt like the first one, and is covered by a roof supported on four pillars, which are carved to look as though they had ropes round them. After passing through the three gates we arrived at the temple, the doors of which are covered with carved sheets of metal, and on the doors, ceilings, and walls are dragons in gilt and colors, in all sorts of positions. We were not permitted to see the idols, which are kept in a shrine like a cupboard. The details of this temple are similar to those of the temples at Nikko, but it is inferior to the latter in respect of carved work. At the back of it is a large hall, and beyond this is the tomb of a celebrated Shogun who died about 150 years ago. This hall is used as a place of prayer; its floor is of beautifully polished black lacquer ware, and the walls and ceilings are carved. The tomb is built of chunam and stone, and resembles the one we saw at Nikko. Close together, in this neighbourhood, are three or four temples, in one of which called Sheba Jo-jo-ji lives the priest.

We next went to the famous park of Tokio called Guino. It occupies a large area, and is situated on a hill called Guend. The park is nicely laid out, and in it is a museum, a two-storeyed building, which was opened two or three years ago. The collection it contains is very interesting. There are a great many specimens of the art work of Japan, and some splendid specimens of porcelain. Besides these it contains models of houses, bridges, ships, etc., in lacquer ware, ancient dresses, armour and weapon, musical instruments, large drums, about 15 feet in height, and sundry other articles. There is also a collection of animals which includes cocks with tails, 12 feet in length, and crabs with bodies a foot and a half in diameter, with legs 5 feet long and as thick as a human leg. We had never seen such large crabs anywhere else. There is also a good collection of shells, some of which are 4 feet in width and a foot thick, and of corals, in the shape of trees, some of them 4 or 5 feet high and wide. We saw also some ancient palkis, large enough to accommodate a man, with handles for 8 men to carry them. These palkis, were formerly used by ladies but they are no longer employed, they are made of lacquer work, covered with gilding. We also saw a dummy cart used in ancient times by the king, large enough for a man to stand in, and fitted with shafts for a horse. Besides these things we saw paintings and specimens of medals. From the museum we went to the zoological gardens hard by, which contain a good collection of living animals, none of which were new to us. Here we saw a she-buffalo like a Bombay one, which is regarded here as a curiosity.

We next went to a place called Asakia, where there are several temples to get to it we had to pass down a long street, in which the houses were all of one style, the ground floors being occupied by shops. Thousands of people were going to the temples to worship, and the street looked like a fair. At the entrance gate of the temple compound were two paper lanterns, 10 ft. in length and 7 ft. in diameter. There are several temples of different styles in this compound, but the temple of Asakia is the largest. The public are allowed to enter this temple in shoes and boots. It is full of gilt and carved work. Thousands of people visit it daily, and there are large iron boxes set up opposite the place of worship to receive the money which worshippers throw into them. It contains one room which is always kept closed, in which are three idols of gold, 2½ inches high, which are not shown to anyone, only the high priest being permitted to enter the room. Except these, there are no idols in the body of the temple, but on a high stand is arranged a row of lamps and utensils, before which people say their prayers, but there are, however, a number of idols along the sides, one of which is supposed to give strength. Those who come to worship apply their hands to its head, arm, leg, &c., and then pass them over the same portions of their own body, in the belief that they will derive strength from it. Owing to this constant rubbing the statue is nearly worn away, and looks like a block of wood.

From here we went to a Japanese theatre which was superior to those we saw at Yokohama. We stayed there about half-an-hour. During that time the scene was changed twice, the first scene represented the winter season, and was very well put on. The actors went on the stage from among the audience, and to prompt them there were special attendants in black dresses, who followed the actors about to correct them. These people did not scruple to move things about on the stage while the acting was going on. On leaving the theatre we went along some streets of important shops. There are no large buildings in Tokio, except the Government offices and the bungalows of the Foreign Ambassadors, and the Daimios The houses of the Daimios are surrounded with servants' chawls and stables, so we could not see the buildings from outside. The city is intersected by canals, by means of which goods are conveyed from one place to another, and into which the city is drained. There are such stenches in some parts that we wondered how the inhabitants of these localities lived. Some of the interior streets are not tighted at all, and only a few large streets are lighted with gas and kerosine oil. In the dark streets the only light comes from the shops on the ground floors and from the lanterns carried by the jinricksha-men, a number of whom are always going to and fro. We saw here a new method of watering the road. A man carried two casks of water suspended on his shoulders by a bamboo. These casks had holes in the bottom through which the water ran as the man went along. The inhabitants of various quarters subscribe among themselves for the watering of the roads. In the streets we saw a good many hawkers taking about goods for sale on carts, and sweetmeat sellers who rang bells and beat drums to attract attention. The roads are crowded with jinrickshas wherever we go. There are said to be 50,000 of these in the city of Tokio. Horse carriages are only used by important officials The officials and the educated classes have most of them adopted European dress. Their clothes are worn very loose, and fit so badly that they are by no means becoming. The king has also adopted European dress, and we see from to-day's paper that the Princesses are also assuming European costumes and learning to ride. There is nothing much to interest one in Tokio, beyond the customs of the inhabitants. The city is composed of a great number of mean streets.

THE REFORM OF UNIVERSITY EXAMINATIONS.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—University reform is at present being pushed vigorously; the advocates of those who appear for the higher examinations are numerous and watch closely the interests of their clients; but nobody appears to be interested in the candidates annually presenting themselves for the Matriculation Examination, and who, by their fees, mainly support the University. The number of candidates who entered for the Matriculation Examination in 1889 was 2,922, the fees realized being Rs. 29,220. The expenditure incurred on the examination was about Rs. 15,000, the surplus contributed to the University being about Rs. 14,000. In 1888, the number who entered was 3,478, the fees received being Rs. 34,780. Allowing Rs. 18,780 for expenditure against Rs. 15,000 in 1889, the surplus was Rs. 16,000. Details of expenditure in 1888 are not available as the University authorities do not publish accounts, and a reform in this direction should certainly be made. The University is a public body receiving moneys in trust for the due performance of certain duties, and it is but fair that the public should be kept informed of what is received, and whether the money has been applied to the purposes for which it has been received. The details of the expenditure for 1889, I have worked out for myself, and they are as follows:—

	Rs.	a.
Fees paid for preparing		
12 Second Language papers at Rs. 50 per paper	600	0
1 English paper	50	0
1 Arithmetic and Algebra paper	50	0
1 Euclid paper	50	0
1 History and Geography paper	50	0
1 Natural Science paper	50	0
Fees paid for examination of papers—		
2,922 English papers at 12 as. each	2,191	8
1,410 Arithmetic and Algebra, at 12 as. each	1,057	8
1,410 Euclid papers at 12 as. each	1,057	8
1,410 History and Geography papers at 12 as. each	1,057	8
1,410 Natural Science papers, at 12 as. each	1,057	8
1,410 Second Language papers, at 12 as. each	1,057	8
Pendal	1,000	0
Supervisors	3,500	0
Stationery	1,500	0
Printing	1,000	0
Total expenditure	15,329	0
Receipts from 2,922 candidates	29,220	0
Profit to the University	13,891	0

The amount received in fees from the Matriculation candidates being so large, one would think the University was bound to make adequate provision for the examination, before a single pice was appropriated to any other purpose. I hope to prove that this is far from the case. At Calcutta twelve examiners are appointed for English, the number of candidates who presented themselves in 1888 being 6,134. If the results there are anything like those in Bombay, more than half this number fail in English, and yet there are ten examiners for Mathematics and 10 for History and Geography. This number is not I think sufficient, but yet it is much greater proportionately than the number appointed in Bombay. I cannot give the figures for Madras, because the calendar of that University, though it gives a long list of the examiners, does not state how many are appointed for each of the subjects in the Matriculation Examination. In Bombay the number of examiners in 1889 when there were 2,922 candidates was four for English, four for Mathematics, two for History and Geography, two for Natural Science, and one for each of the Second Languages. An analysis of the work done by each examiner in 1888 would probably show more unfavourable results than an analysis of the work done in 1889, but the results of 1889 are bad enough, proving conclusively that the University in Bombay does not make adequate provision for the examination of its Matriculation candidates. The examination began on Monday, the 18th November, ended Friday the 21st November, 1889, and the results were made known on the evening of the 24th December 1889. The first paper set was English, for which there were four examiners. Giving one day for the Registrar's clerks to get the papers ready for transmission and one day for transit, the examination of those papers could not have begun till the 21st November. Two examiners must have received 730 papers each, and two 731 each. There were 33 days, including Sundays, in which to examine these 730 or 731 papers, and allowing that the examiners worked at a uniform rate every day, between 22 and 23 papers must have been examined each day. There may be differences of opinion, as to the time required to examine a paper thoroughly, and to weigh the merits of each paper, but most teachers on whom I have consulted, tell me half an hour is required for the examination of a paper three hours in duration. If this estimate be accepted, the four gentlemen examining these papers devoted 10½ to 11 hours a day to the work, besides pursuing their ordinary avocations to which 7 hours a day must have been given. They worked therefore for 33 days at the rate of 18 hours a day; and if they did, what must have been the quality of the work towards the latter part of the period. Surely these gentlemen were not prepared to undergo this strain for a paltry sum of Rs. 500 or Rs. 600. Even if we reduce the time devoted to each paper to a quarter of an hour, they must have worked 12 hours a day to have finished the papers in the time at their disposal. If they devoted less than 15 minutes to a paper the work could not have been done properly. 1,510 candidates failed in English; so that only 1,410 papers in each of the other subjects required examination. The two examiners in History and Geography had therefore 705 papers each to examine. The four examiners in Mathematics had 1,410 papers in Arithmetic and Algebra, and 1,410 papers in Euclid to examine, or 705 papers each. The two examiners in Natural Science, one of whom was also examiner for several of the higher examinations, had also 705 papers each to examine. Allowing them 30 days for the work, and that the number of papers examined each day was uniform, 23 to 24 papers were examined each day. The time occupied each day was either 12 hours a day or 6 hours a day, just as one may think 30 minutes or 15 minutes is required for each paper. These gentlemen also are all busy men, who have their ordinary avocations to attend to, so that each of them worked continuously for 30 days at 19 hours a day or 13 hours a day at least. I ask what could have been the quality of the work done towards the end of the period? The examiners of the following Second Languages papers must also have had a trying time of it, even after allowing for failures in English:—

Marathi	652 candidates.
Persian	723 do.
Sanskrit	668 do.
Gujerathi	478 do.
Latin	171 do.
Canarese	161 do.

In estimating the value of the above deductions it must be remembered that the conditions under which the work was done have been presented in the most favourable light. It is impossible to conceive that the work was carried on at a uniform rate. Each day's work was as heavy as it could well be, and any relaxation meant a corresponding increase in the amount of work to be done on the following days. It must also be remembered that some of the examiners were also examiners for the University Final School Examination, at which 505 candidates presented themselves. Viewing the conditions in the most favourable light, can any one say conscientiously that the work could be done satisfactorily? Is not the temptation to work hurriedly too strong to be resisted? The University applies no check to see that the work is done properly, and the examiners know perfectly well they are responsible to no one, and that no one will dare to question the work. After all the examiners are human, with limited powers of work, and if unreasonable things are required of them, it would not be wonderful if they did give way to the very strong inducements to do the work improperly. Is it strange that complaints should be made of the very raw material passing into the Colleges, and have not many who fail each year just grounds for thinking that had their papers received proper attention, they might have appeared in the list of successful candidates?

The remedy for this state of things is simple, and can easily be applied. First, raise the fee paid for the examination of each paper, giving Re. 1 instead of 12 annas. Appoint a Board of Examiners consisting of Examiners and Assistant Examiners for each subject, the duties of the Assistants being to examine all the papers, and those of the Examiners being to set the question paper and re-examine a certain percentage of the papers (say 10 per cent. taken at random) seen by the Assistants without reference to the fact whether the candidate has received the minimum number of marks or not. The number of Assistant Examiners should be sufficient, so that no one Examiner should be required to examine more than 300 papers. The Examiner should send a report of the results obtained, noting defects revealed by the examination to the Registrar, who should tabulate the results of all the subjects, and submit the tabulated results, with the answered papers, to two Fellows, who may be selected by the University for the purpose. These two gentlemen should be required to check the tabulation, and the results as finally passed should be submitted to the Syndicate for approval and publication. Candidates requiring to learn the marks obtained, should, as at present, on payment of the fee, be informed of the marks obtained in each paper. Calculating upon the figures of 1889 the cost of the examination, were those reforms made, would not be more than Rs. 20,000, and would still leave a profit of about Rs. 10,000 to the University. There may be an impression that the surplus of the fees obtained from the lower examination is required for the maintenance and general charges of the University, but it must not be forgotten that Government make a grant of Rs. 15,000 per annum, which is more than sufficient to meet this expenditure. The fees therefore are required only to meet cost of examinations, and the lower examinations should certainly not be starved to provide means for the higher, which ought to be made to pay their own cost. If the Government grant is withdrawn at any time, the fees of the examinations could be raised all round, but the arrangements for carrying out the examinations should be such that no ground for complaint should exist.—Yours, &c.,

THEFT BY POLICEMEN.

SUPERINTENDENT PAGE, of the water police, yesterday charged two water police constables, named Kootboodin Shaik Dhamooh and Shaik Bala Shaik Baba before Mr. Cooper at the Esplanade Police Court, with the theft of a bag of coffee, valued at Rs. 80, the property of a merchant, named Tricumdass Vaya. A third person, named Meali Shaik Mahomed, a tindal, who had charge of the property, was also charged with criminal breach of trust. From the evidence before the Court it appeared that the three accused lived in the same house. On the morning of the 1st instant, the two policemen were relieved of duty at about half-past four in the morning, and after this proceeded in a tony to the Powder Bunder. Here they hired a tony, and proceeded in it to the prow in which Tricumdass's coffee was stored. As the tony drew alongside the prow, the tindal Meali emptied two bags of coffee into two quite different ones, and handed them to the constables. The latter pushed off towards the Bunder head. Arrived here, they were rather puzzled as to how they would be able to get their articles off the Bunder head without exciting the suspicion of both the Port Trust and Custom House preventive officers. A happy thought struck Kootboodin. Leaving the bunder, he went in quest of a victoria, and told the driver that he wanted him to convey a sick man away. The driver thought the sick person was inflicted with some infectious disease, and at first refused to come, but on the policeman affixing that such was not the case he drove the constable to the Bunder. Having carried out his scheme, instead of lifting in a sick man, two bags of coffee were thrown in, and both the constables drove off with their prize. They had not proceeded far when they were accosted by a peon of the Port Trust who questioned them as to the contents of the bags. The accused replied that they contained nothing else but a quantity of rice and gram. But on examining the bags, they were found to contain a quantity of coffee, and were handed over by the Port Trust peon to Mr. Mc. Guire, a preventive officer of the Customs Department. The latter eventually handed over the two constables to Superintendent Page, who charged them with the tindal before Mr. Cooper. The gharywalla's evidence tended to prove the theft of the articles, and following the evidence before him his Worship said that they had been guilty of a very serious crime, which was punishable with seven years' rigorous imprisonment, and sentenced them each to undergo one year's rigorous imprisonment in the House of Correction. The property was made over to the owner.

DESECRATION OF THE MHOW TOWER OF SILENCE.

THE *Eastern Herald*, a paper published at Mhow, says:—We regret exceedingly to hear that within the last few days some soldiers of Mhow garrison have twice forced open the door of the Parsi Tower of Silence. This naturally gave rise to a considerable excitement in the community whose feelings were very much outraged; but we are happy to be able to state that Major General R. R. Gillespie, with that rare tact and thoughtfulness which have always distinguished him, immediately on hearing of the unfortunate occurrence, took all possible step—unfortunately without success—to find out the perpetrators of the misdeed, and although indisposed for the last few days, he held a special parade of the European troops of the Garrison on the morning following the last occurrence, and pointed out to the men the disgraceful nature of the outrage committed, and warned them that its repetition would be severely dealt with.

The Tower of Silence has been now on account of the above occurrence been placed "out of bounds" for the troops, and the General has notified in Station Orders that any soldier found on the Hill where the Tower of Silence is situated, will be handed over for trial by Court Martial. We confidently hope that the strong measures adopted by Major-General Gillespie will have a salutary effect, and we may further add that this act of his has given general satisfaction amongst the Parsi community who are grateful to him for his thoughtful and prompt measure.

ALL those who appreciate Lily-white Teeth Purity of the Mouth, and a Breath of Flowers, should use Henry & Co.'s FLORAL MOUTH ELIXIR, which is both a perfect dentifrice and at the same time a delicious Mouth-Wash Per bottle, Re. and 1-4 Re. 1.

FEMININE FACTS AND FANCIES.

SPRING FABRICS.

SPRING fabrics are already with us, chiefly soft woolen loosely-woven materials, in the newest shades of colour, of which blues, greens, pale greys, and fawns would seem to be the favourites. Spots have, to a certain extent, superseded checks and plaids, though both are still greatly *en evidence*. The desire for change has led foreign designers to introduce large *bombe* patterns. As yet English manufacturers have not adopted the larger spot patterns, which range in size from a shilling to a two-shilling piece differing, however, from the patterns of this kind previously seen, in the fact that the spots do not present a smooth, one-coloured surface, but are rather a collection of small rounds, of two or more colours set together; thus, two shades of blue and two of brown in a *bombe* design, on a ground of either blue or brown, the colouring of the spots generally darker than the material on which they are scattered. At present this novelty is confined more particularly to thick mantle materials, but it will spread to dress stuffs shortly. Among fabrics of English manufacture there are some pretty new Cheviots, "Cromer," "Torquay," and "Melrose," for example, and arrangements of stripes in grey and green, blue and grey, and black and grey. In lighter materials plaids would seem to be the prevailing idea, and some of the plaid zephyrs are remarkably pretty, the combinations of colouring being, in some cases, very happy. The floral de laines, though not especially new, are pleasing. So are the foulards in the new shades, with white flower sprays; a blue-grey has branches of flowering blackthorn, the leaves in open design, merely their outlines and veinings showing, the flowers being, on the contrary, solid. Much the same pattern looks well on green or on yellow. This last, for evening wear, made up with either white or yellow crepe de Chine would look well. The finer, smooth-surfaced kinds of cloth, in pale, delicate colours are worn now for afternoon toilettes, and poplinettes in ivory and cream, with tiny bouquets of flowers, or single flowers in brown and pink, will be well worn as the season advances.

THE NEWEST BROCADES.

The newest brocades are really exquisite. Hydranges, rhododendron, blue—the old-fashioned shades of which are again seen—heliotrope, pale yellows, and greys of all shades are well represented. A lovely brocade has a pearlwhite ground, with lilac crocus buds, flowers, and leaves thrown over it. Another has a very pale grey ground, with yellow crocuses. Spring flowers are very appropriate for the early Drawing Rooms, and these brocades would make up admirably over silk, satin, or velvet petticoats of the same colour as the flowers on the brocade. Pompadour brocades are fashionable this year in the true colours. A pink brocaded silk of very rich texture has a pale ground, with roses of a deeper shade of pink, and red-brown leaves, the different tones of colour blending delightfully. A white grounded silk has yellow tulips on it; a pale grey, trails of honey-suckle, with leaves varied white, pink, and yellow tints, and leaves the exact shade seen in Nature; while the Jacquoise morte grounded brocade, with bouquets of forget-me-nots, in the many shades of blue and pink that pretty little flower affects is really subtle in its beauty.

VELVETS.

The velvets are extremely handsome—striped, broche, frise, brocaded—all the varieties, indeed, of the fabric; those with raised shaded silk flowers on a plain ground being especially noticeable, and thoroughly suitable for the purpose for which they are being more particularly considered. A Court dress, to be thoroughly successful, should be a perfect scheme of colour, thought being given to every portion of it; and the fact that the wearing of white feathers and white gloves is obligatory never lost sight of, in order that they may be harmoniously wrought, as it were, into the scheme. To do this, white must be repeated in the dress itself, for the educated eye will as surely look for it to give artistic completeness to the whole, as the musical ear will listen to catch the *motif*, the underlying melody in a sonata. The effect of many a handsome gown is spoilt by want of attention to detail. So care must be taken that the white headdress and gloves do not contrast too glaringly with their surroundings, or they will detract from an otherwise harmonious whole.

ORDINARY DRESS.

Fashion, as far as the make of ordinary dress is concerned, is still expressed by high fulled sleeves, draped bodices, and plain, not to say scanty, skirts. It would seem as if the fulness taken from the skirt of the dress was used to swathe the body and accentuate the height of the sleeves. The French models do not show such extremes of fashion as do those of our *modistes*, and consequently, are in better taste. Great features are made of the opaque sleeves and straight-hanging flat skirts, but the bodices are much more plain. An almond-coloured fine cloth has a tight-fitting bodice, with bronze velvet high sleeves, puffed above the elbow; the plastron, collar, cuffs, and waist-piece are of bronze-beaded passementerie; below the point of the waist, over the plain front breadth, hangs a fringe of bronze beading, the sides and back of the gown being pleated as flat and as close to the figure as is possible. Another pretty French dress is a dinner gown, in rich bronze velvet, with front of pale blue crepe de Chine, drawn in fold over the shoulders to a point at the waist, with a slight opening at the throat; the front of the skirt is also of the crepe, in folds, the outside edge on each side finished off with fine gold lace; the short velvet sleeves are set in very high on the shoulders, and finished off with folds of crepe de Chine; the velvet skirt, plain at the sides, falls in a square demi-train behind, the folds of which are set in as flat as possible at the back.

MANTLES.

It is too early to give any decided intimation of what shape Spring mantles will be. The newest-looking are in straight fronted cloak form, or else redingote shape. Of the first-named an elegant model is in dead-leaf coloured cloth, with an all over pattern in willow leaves of a deeper shade. It has a turn-down brown velvet collar; the shoulder pieces are gathered, the folds sitting up over the point of the shoulder, and falling straight to the feet, leaving the front, of the same material, open; it is lined throughout with brown satin, but has no sleeve pieces. A redingote form is of red-brown, narrow-striped cloth, with front, bordered on each side with band of astrachan, of black soutache cloth; the high collar is of fur, and the wide cuffs of soutache bordered with fur. This coat fits the figure, sitting flat at the back. Another tight-fitting shape is of striped black and grey chevoit; it has revers, epaulettes, and collar of black silk, and is secured round the waist by a sash of wide black silk ribbon, tied in front in a bow with long ends; the sleeves are full to the elbow, with tight black silk sleeves below. This is intended for mourning wear. In two shades of brown, with brown silk, or striped green velvet and faille, this is a stylish looking wrap for mid-season use; the hat worn with it should match in colour, and be of felt, trimmed with silk or velvet.

BONNETS.

One of the prettiest of the Paris bonnet models is the Marguerite, which is really charming in its studied simplicity. It consists of fine black lace, ecru embroidery and flowers; the crown is of the lace, with roses, pale pink or yellow, set in very lightly above the sides, which are formed of the embroidery. There is a knot of lace in front with erect wired wings; there are no strings, as the bonnet is really more of a capote. The jockey is another novelty in the bonnet line; a small close-fitting shape, as are most of the Spring bonnets; hats, on the contrary, being of large size. It is of grey-green cloth and darker green ribbon velvet, with a narrow gold stripe in the centre; the cloth is arranged in careless folds for the crown, a bow of velvet set immediately above the forehead, velvet laid along the sides and crossed at the back, forming strings; green feathers, shaded from the palest to the deepest colored green, being set on the left side

HATS.

The Olga and the Soledad are new hats. The former has a low crown, with a somewhat wide brim, turned down at the sides and straight up in front. The model is in black chip, bound and lined with black velvet. Behind the upturned front brim are bows of black velvet and red and black striped ribbon, black ostrich feathers and aigrette of red feathers. The same shape looks well in grey and black, or in dark blue. The Soledad has the crown and brim covered with gold and black lace; the brim is fluted all round, the flutes increasing in size until they stand out in front considerably beyond the forehead; their lining is of black velvet; large bows of black silk ribbon, shot with gold, are arranged in front of the hat, and a ribbon band around it. Already some very large black lace hats, trimmed with Parma violets are appearing in the show-rooms, and Manilla straws, with crowns of soft silk and clusters of flowers. One in black lace straw has Lent lilies laid carelessly at the sides, the crown being of soft black silk. Flowers, as trimmings for bonnets, hats, muffs, and ball gowns, will be more used than ever this year, which is a source of congratulation,

"YOU are old, father William," the young man cried,
"Yet your locks they are glossy and brown,
I hear the folks saying on every side
You 've the best head of hair in the town."

"In the days of my youth," Father William replied,
"I remembered my locks might grow spare,
So Kemp's Equatorial Hair Douche applied,
The result is this fine head of hair."

Now young men and maidens, I pray you, give ear,
To the moral the verses convey,
By using Kemp's Hair Douche you never need fear,
Scanty locks as the years roll away.

LUMINOUS PHOSPHORUS

Important to Invalids!

H. & T. KIRBY & CO'S PREPARATIONS

Possess wonderful VITALIZING and ENERGIZING PROPERTIES and are THE MOST POWERFUL RESTORATIVES OF VIGOUR AND MENTAL ACTIVITY KNOWN. The Phosphorus being unoxidised supplies the brain and spinal cord with its proper Pabulum.

In this form it is powerfully remedial, particularly in LOSS OF NERVE POWER, as manifested by INCAPACITY FOR WORK, WANT OF ENERGY, LOWNESS OF SPIRITS, NEURALGIA, MENTAL DEPRESSION, MELANCHOLIA, FEEBLE DIGESTION AND CIRCULATION, COLD EXTREMITIES, WEAK HEART, LOSS OF PHYSICAL VIGOUR, and NERVOUS DEBILITY. For these and all other conditions indicating defective nutrition or exhaustion of the nervous centres, whether arising from overwork, the effect of climate or colds, Medical authorities all agree that PHOSPHORUS is the most effectual remedy.

The following preparations, of which we are the ORIGINAL Makers, are thoroughly reliable. They may be obtained from our appointed Agents (see below), in Bottles, 3s., 5s. and 10s. each (English money), the 10s. Bottle containing sufficient for a course of three weeks. Two 10s. Bottles may be obtained direct from the makers' laboratory, carriage paid to any post town in India or Australia, by remitting Post Office Order for 21s.

SIMPLE PHOSPHORUS PILLS.
(Dr. KIRBY'S Formula, No. 5), containing 1-20th gr. Phosphorus.
Dr. KIRBY says: "Experience fully warrants the administration of Phosphorus in this dose" in severe attacks of Neuralgia and cases of extreme Nervous Exhaustion; it gives excellent results, taken with food three or four times a day.

PHOSPHORUS AND QUININE PILLS.
(Dr. KIRBY'S Formula, No. 3), containing 1-50th gr. Phosphorus.
This is a valuable combination of two powerful restoratives. As a *nutrient tonic* it gives power to the brain and spinal cord. As a *nerve tonic* to the digestive organs, increases functional activity and improves the condition of the whole system. It is largely employed in India during convalescent stages of intermittent and recurrent fevers. It is an excellent remedy for *Malaise* induced by the climate, and is a good prophylactic against *Malaria*.

PHOSPHORUS AND IRON PILLS.
(Dr. KIRBY'S Formula, No. 7), containing 1-50th gr. Phosphorus.
This is given with great advantage in *Anæmia, Sciatica*, and other Neuralgic affections, also in the treatment of convalescence from fever and other debilitating diseases. It is an excellent chemical food for anæmic children, and a good adjuvant to a course of cod liver oil.

PHOSPHORUS AND NUX VOMICA PILLS.
(Dr. KIRBY'S Formula No. 6), containing 1-33rd gr. Phosphorus.
This combination is useful in all the cases named above, but especially in cases of feeble digestion and *loss of power*, following excesses. Taken regularly with food for a few weeks it has a powerfully renovating effect on broken-down constitutions.

PHOSPHORUS, QUININE AND NUX VOMICA PILLS.
(Dr. KIRBY'S Formula, No. 4), containing 1-50th gr. Phosphorus.
The use of this combination will be gathered from what has been said of the previous Formulæ, Nos. 3 and 6.
For a similar combination with Iron, see No. 9.

COMPOUND PHOSPHORUS PILLS.
(Dr. KIRBY'S Formula, No. 9), containing 1-50th gr. Phosphorus, with Iron, Quinine and Strychnia.
This combination of nerve tonics has a very large application. It is efficacious in all disorders which are characterised by impoverished blood and diminished nerve power, especially in that low condition of the general health which is induced by overwork, dissipation, and excesses of various kinds. In this state iron and phosphorus is strongly indicated. In Constitutional Syphilis it has a high remedial power, by improving the condition of the blood and by stimulating its regenerative power. It is exceedingly energising and strength-giving. As a tonic for convalescents recovering from fever and other exhausting diseases it is unequalled.

STRONG PHOSPHORUS, IRON, QUININE AND NUX VOMICA PILLS.
(Dr. KIRBY'S Formula, No. 17), containing 1-25th gr. Phosphorus.
This is double the strength of No. 9 as regards Phosphorus and Quinine, and therefore should be prescribed *only* in cases where the larger dose of Phosphorus is needed.

PHOSPHORUS, CANTHARIDES & NUX VOMICA PILLS.
(Dr. KIRBY'S Formula, No. 20), containing 1-33rd gr. Phosphorus.
This pill produces no irritation of the gastro-intestinal mucous membrane, but operates as a gentle stimulant to the genito-urinal organs. It is especially useful in premature failure of power, induced by passive discharges due to debility. It is also useful as a *stimulating emmenagogue* in obstinate cases of *Amenorrhœa, Leucorrhœa*, and *Atony of the Uterus*.
Formula No. 30 contains Iron, and as a tonic is most suitable for *feeble, anæmic* females.

For fuller particulars of other Combinations, Medical Men are invited to apply to the Agents for descriptive pamphlet, supplied free of charge.

ONLY GOLD MEDAL for Whiskey, PARIS, 1889.

BUSHMILLS WHISKEY is absolutely pure, nothing but the best Malted Barley being used in the manufacture.

Trade Mark.

Take a little trouble to try Old Bushmills. It will be a more serious trouble afterwards to be noted for keeping the finest Whiskey round. To ensure purity it is advisable to get that bottled by the Company, the labels, capsules, and corks bearing their name. A dozen case contains two gallons.

OLD POT STILLS ONLY.

600 Opinions. 600

W. Sinclair Thompson, M.D., F.R.C.S., writes from London—"I have appreciated your old Whiskey very much, and recommend it to my patients."

"Land and Water" says—"Of all spirits, Whiskey is the most wholesome, and one of the finest 'brands' of that spirit I have ever tasted is Old Bushmills."

"The County Gentleman" says—"Connoisseurs giving Old Bushmills a trial cannot fail to appreciate its mellowness and flavour."

"Licensed Victuallers' Gazette" says—"We have sampled specimens of Old Bushmills Whiskey, and are quite of our old friend Captain Mayne Reid's opinion, that it has no superior."

"The Court Circular" says—"Old Bushmills can be specially recommended for its exceptionally pleasant flavour."

PARIS EXHIBITION. OLD BUSHMILLS BEAT ALL. JUDGES AWARDED IT THE ONLY GOLD MEDAL FOR WHISKEY.

Edmund Yates,

"His Recollections & Experiences,"
Vol. I., page 251, says:—

I COULD not afford good wine, and would not give bad; but there was some Irish Whiskey which I procured through Mayne Reid ("BUSHMILLS" was its name), which was highly esteemed.

Writing in the *World* of Dec. 22, 1886, he says:—

MENTION made, in certain *Reminiscences* of mine, of a pleasant and wholesome alcoholic stimulant, called "Bushmills Whiskey," has led the proprietors of the famous Distillery to assure me that their alcohol is still extant in its pristine excellence, and, to confirm the assurance, send me a specimen of their produce. "All taps," we are assured by Mr. Stiggins, "is wanity;" but I am glad to find that a favourite "wanity" of my youth is as mellow and as innocuous as when first introduced to my notice by my old friend, Captain Mayne Reid.

The Bushmills Company will be glad to hear from firms who keep their Whiskey, or who wish to keep it, so that their names may be added to this Advertisement if desired.

BEECHAM'S PILLS

BEECHAM'S PATENT PILLS. ST. HELENS LANCASHIRE

ARE universally admitted to be worth a Guinea a Box for Bilious and Nervous Disorders, such as Wind and Pain in the Stomach, Sick Headache, Giddiness, Fulness, Swelling after Meals, Dizziness and Drowsiness; Cold Chills, Flushings of Heat, Loss of Appetite, Shortness of Breath, Costiveness, Scurvy and Blotches on the Skin, Disturbed Sleep, Frightful Dreams, and all Nervous and Trembling Sensations &c. The first dose will give relief in twenty minutes. Every sufferer is earnestly invited to try one box of these Pills, and they will be acknowledged to be

WORTH A GUINEA A BOX.

For females of all ages these Pills are invaluable, as a few doses of them carry off all humours, and bring about all that is required. No female should be without them. There is no medicine to be found equal to Beecham's Pills for removing any obstruction or irregularity of the system. If taken according to the directions given with each box, they will soon restore females of all ages to sound and robust health. This has been proved by thousands who have tried them, and found the benefits which are ensured by their use.

For a Weak Stomach, Impaired Digestion, and all Disorders of the Liver, they act like magic, and a few doses will be found to work wonders on the most important organs in human machine.

They strengthen the whole muscular system, restore the long-lost complexion, bring back the keen edge of appetite, and arouse into action, with the rosebud of health, the whole physical energy of the human frame. These are FACTS testified continually by members of all classes of society, and one of the best guarantees to the Nervous and Debilitated is, BEECHAM'S PILLS *have the Largest Sale of any Patent Medicine in the world.*

Beecham's Magic Cough Pills.

As a remedy for Coughs in general, Asthma, Bronchial Affections, Hoarseness, Shortness of Breath Tightness and Oppression of the Chest, Wheezing &c., these Pills stand unrivalled. They are the best ever offered to the public, and will speedily remove that sense of oppression and difficulty of breathing which nightly deprive the patient of rest. Let any person give Beecham's Cough Pills a trial, and the most violent Cough will in a short time be removed.

The Natives of India will find **Beecham's Pills** the finest medecine ever introduced to their notice; the English residents also will find them of great value for Cooling the Blood: as for throwing off Fevers and preventing inflammations in hot climates, they stand without a Rival.

20, GREAT [illegible]

SAD BUT TRUE.

THE HISTORY OF MANKIND CONVINCES US

That disasters are in reality stepping stones for higher progress. To prevent disastrous diseases from poisoned blood, use

ENO'S "FRUIT SALT."

No one can have a simpler and more efficient remedy. By its use the poison is thrown off, and the blood restored to its healthy condition by natural means. I used my FRUIT SALT freely in my last attack of Fever, and I have every reason to say it saved my life.—J. C. ENO.

Instead of being lowering to the system, ENO'S "FRUIT SALT" is in the highest degree Invigorating. Its effect in relieving thirst, giving tone to the system, and aiding digestion is MOST STRIKING.

NO TRAVELLER SHOULD LEAVE HOME without a supply of ENO'S "FRUIT SALT," for by its use the most dangerous forms of fevers, blood poisons, &c., are prevented and cured. It is in truth a Family Medicine Chest in the simplest yet most potent form. It has a natural action on the organs of digestion, absorption, circulation, respiration, secretion and excretion, and removes all impurities, and hinders (by natural means) the unnatural and dangerous accumulation of fat. It keeps the body in healthy trim, by preserving and restoring health.

HEADACHE AND DISORDERED STOMACH.—"After suffering for years from severe headache and disordered stomach, and after trying almost everything without any benefit, I was recommended your 'FRUIT SALT,' and before I had finished one bottle I found it doing me a great deal of good, now I am restored to my usual health; and others I know that have tried it have not enjoyed such good health for years.—Yours most truly, ROBERT HUMPHREYS, Post Office, Barrasford."

THE ATLAS MOUNTAINS (MOROCCO), NORTH AFRICA.—Mr. Harold Crichton-Browne, in a letter from the Atlas Mountains, says:—"The Kaid of Demnet treated us so well that we desired, on leaving, to make him some acknowledgment, and presented him with . . . a bottle of ENO'S 'FRUIT SALT,' with which he was much pleased."—*The World*, September 12, 1888.

SUPERIOR TO ALL OTHER SALINES.—"Dear Sir,—Having been in the habit of taking your 'FRUIT SALT' for many years, I think it only right to tell you that I consider it a most invaluable medicine, and far superior to all other saline mixtures. I am never without a bottle of it in the house, as I find it possesses three most desirable qualities, namely, it is pleasant to the taste, promptly efficacious, and leaves no unpleasant after-effects.—A DEVONSHIRE LADY.—Jan. 25, 1889."

CAUTION.—*Legal Rights are protected in every civilized country. Examine each bottle and see that the Capsule is marked ENO'S "FRUIT SALT." Without it you have been imposed on by a* **WORTHLESS IMITATION.** *Sold by all Chemists, &c. Prepared only at*

THE PUREST. THE MOST PALATABLE. THE MOST DIGESTIBLE. THE MOST EFFICACIOUS.

Incontestably proved by Thirty Years' Medical Experience to be

The only Cod Liver Oil which produces the full curative effects in

CONSUMPTION AND DISEASES OF THE CHEST, THROAT AFFECTIONS, GENERAL DEBILITY, DISEASES OF THE SKIN, WASTING DISEASES OF CHILDREN, RICKETS, AND ALL SCROFULOUS DISORDERS.

SELECT MEDICAL OPINIONS.

DR. PROSSER JAMES,
Lecturer on Materia Medica, London Hospital.

"Dr. DE JONGH'S LIGHT-BROWN COD LIVER OIL contains the whole of the active ingredients of the remedy, and is easily digested. Hence its value, not only in diseases of the Throat and Lungs, but in a great number of cases to which the Profession is extending its use."

DR. HUNTER SEMPLE,
Physician to the Hospital for Diseases of the Throat and Chest, London.

"I have long been aware of the great reputation enjoyed by the LIGHT-BROWN COD LIVER OIL introduced into medical practice by Dr. DE JONGH, and have recommended it with the utmost confidence. I have no hesitation in stating my opinion, that it possesses all the qualities of a good and efficient medicine. Its taste is by no means disagreeable, and might even be called pleasant. Patients consider it a luxury. By Dr. DE JONGH'S OIL very useful in cases of Chronic Cough, and especially in Laryngeal Disease complicated with Consumption."

DR. SAUNDERS, C.B,
Late Deputy-Inspector-General Army Hospitals, Superintendent London Medical Mission.

"I have used Dr. DE JONGH'S LIGHT-BROWN COD LIVER OIL extensively among the sick poor of St. Giles's, and consider it a valuable remedy, especially in the Wasting Diseases of Children."

DR. WHITMORE,
Medical Officer of Health, St. Marylebone, London.

"My own somewhat lengthened experience as a Medical Practitioner enables me with confidence to recommend Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL as being more uniform in quality, more certain in its effects, more palatable, and infinitely less likely to disagree with the stomach than the Pale Oil. If I were asked to an explanation of the marked success which for so many years has attended the administration of Dr. DE JONGH'S LIGHT-BROWN COD LIVER OIL, I should say that it is owing to its extraordinary medicinal, dietetic, and nutritional properties, and which are found to exist in no other medicine that I am acquainted with, in such uniform combination."

Dr. DE JONGH'S LIGHT-BROWN COD LIVER OIL is supplied ONLY in IMPERIAL Half-Pints, Pints and Quarts, sealed with the Patent Capsule impressed on the top with Dr. DE JONGH'S Stamp, and on the side with his Signature, and the Signature of ANSAR, HARFORD & Co.; and bearing under the wrapper a Label with the same Stamp and Signatures.

HEALTH, STRENGTH, AND ENERGY.

For TWENTY FIVE YEARS has maintained its world-wide reputation as the ONLY SAFE RELIABLE PHOSPHORIC REMEDY ever discovered for the Permanent Cure of Brain Wreckage, Paralysis, Sleeplessness, Harassing Dreams, Premature Decay of Vital Power, and all Functional and Diseased Conditions of the System, dependent upon the Deficiency of the Vital Forces.

IT CURES Dyspepsia, Nerve, and Heart Disease.
CURES Kidney and Liver Complaints.
CURES all Blood Disorders.
CURES Consumption and General Debility.
CHECKS all Wasting of the Vital Forces, From whatever cause arising.

The EFFECT of this Standard PHOSPHORIC Remedy in Nervous Debility and its kindred Evils is immediate and permanent, all the Miserable Feelings and Distressing Symptoms disappearing with a rapidity that is Really Marvellous,

DR. LALOR'S PHOSPHODYNE

Actually creates New Nervous Fluid and Brain Matter by supplying the Blood with its Electric Life Element—PHOSPHORUS, the very Core and Centre of the Brain itself, restoring the fullest and most vigorous conditions of Robust Health of Body and Mind, and whilst pleasant to the taste, never fails to Purify and Enrich the Blood, and thoroughly invigorate the Brain, Nerves, and Muscles. Its energising effects are shewn from the first day of its administration by a Remarkable Increase of Nerve and Intellectual Power, with a Feeling of Courage, Strength, and Comfort, to which the Patient has long been a stranger. Digestion is invigorated. The Appetite increases wonderfully. The bowels become regular. Sleep becomes calm and refreshing. The face becomes fuller, the Lips red, the Eyes brighter, the Skin clear and healthy, and the Hair acquires Strength, showing the importance of its action on the Organs of Nutrition.

DR. LALOR'S PHOSPHODYNE

is the only Medicine of the kind or name awarded a Certificate of Merit, at the Calcutta Exhibition, 1883-4, where all Countries were Exhibitors and the only Trade Mark—"PHOSPHODYNE"—Registered and Protected under the Trade Marks Act.

CASCARADYNE

The New Fruit.

REGISTERED TRADE MARK.

NATURE'S REMEDY FOR CONSTIPATION. PLEASANT TO TAKE. CERTAIN IN ACTION. WITHOUT A RIVAL FOR CONSTIPATION.

Opinions of the Medical Press. We have had occasion in cases of Chronic Constipation, and have found them to effect their purpose most satisfactorily.—*The Lancet*, Oct. 27th, 1888.

THE NEW FRUIT

ACTS on the LIVER.

Not only acts on the bowels, but the charm of its action is that from its invaluable great tonic properties, it at once imparts tone and energy to the muscular coats of the stomach and bowels, thereby re-establishing its long lost power. The New Fruit Gently awakens the Liver, creating a natural action of the bowels and biliary secretions, &c.

Such diseases as Biliousness, Bad Breath, Constipation, Piles, Dyspepsia, Dizziness, Flatulence, Fits, Indigestion, Headache, Loss of Appetite, Neuralgia, &c., are well known to emanate from Constipation.

Dr. Bright's Phosphodyne

Is a marvellous medicine for renovating impaired and broken-down constitutions. It operates on the system without exciting care or thought upon the individual as to the process. It moves the lungs, liver, kidneys, stomach and intestines, with a harmony vigour, yet mildness unparalleled in medicine.

Dr. Bright's Phosphodyne

Gives back to the human structure, in a suitable form, the phosphoric or animating element of life, which has been wasted and at once imparts new energy and life to the enfeebled constitution.

Dr. Bright's Phosphodyne

Is patronized by Aristocracy and the Elite, extensively used in the Army and Navy, and highly recommended by the leading Medical Practitioners.

CAUTION.—DR. BRIGHT'S PHOSPHODYNE.

The ONLY Medicine of that name granted certificates by Her Majesty's Registrar of Trade Mark. Beware of VILE worthless Imitations made up to trade upon the Reputation of Dr. BRIGHT'S PHOSPHODYNE. Therefore ask for Dr. BRIGHT'S, and refuse Useless Substitute.
